X	Alcohol
X	Drugs
X	Guns (includes BB-guns)
X	Knives
X	Energy drinks

Please let us know if you are a regular smoker needing to bring smokes and have while on camp.

## Participant Equipment Regulations

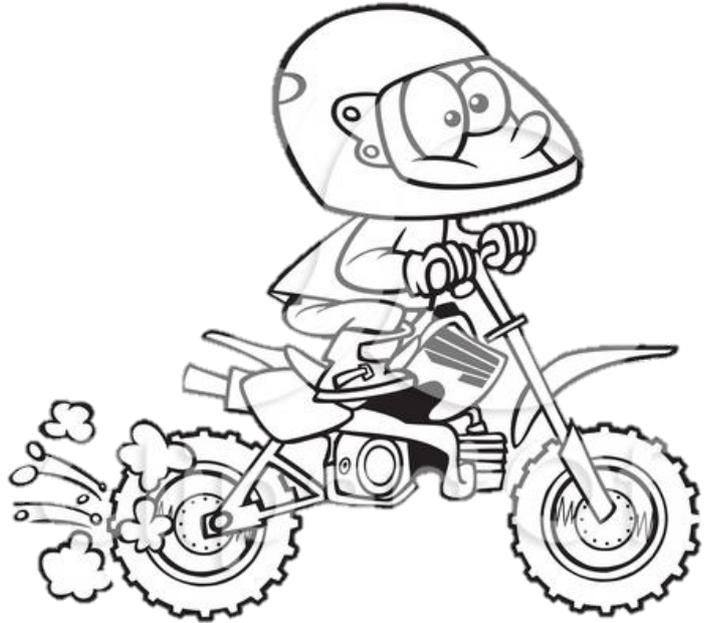

If you are providing your own dirt bike and riding gear equipment you do so at your own risk. Below is the compulsory standard and the recommendations we have for your equipment when participating at Encounter events. Only off road motorcycles are permitted at Encounter dirt bike riding activities.

### Compulsory dirt bike standard;

- ✓ Exhaust systems must be fitted and securely mounted and not excessively noisy
- ✓ No cracks in frame
- ✓ Fuel tank cap must seal, not allowing leakage & a breather hose fitted
- ✓ Handlebar padding fitted
- ✓ Handle bar levers must have round ends
- ✓ Fitted with efficient braking on both front and rear wheels

### Recommended for your dirt bike;

- ✓ Fork seals and rear shock leak free
- ✓ Sprockets teeth efficient for use
- ✓ Chain adjustment correct
- ✓ Handle bar grips glued or wired tightly on
- ✓ Throttle has snappy and free return
- ✓ Secure foot pegs spring loaded
- ✓ Check condition of tyres and tyre pressures suitable for track conditions
- ✓ Give bike a wobble test before use to make sure your bearings are tight and nothing is falling off your dirt bike.

### Compulsory safety riding gear standard;

- ✓ Helmets –
  - At all Encounter operations, helmets will be worn when any rider or passenger is astride a motorcycle which is in motion, whether these be 2 or 4 wheeled.
  - The Equipment Coordinator has the authority to impound any helmet considered of insufficient standard or in a damaged or unsound condition.
  - Only helmets with a strap retaining system are permitted.
  - Each participant will be required to prove good fit of his/her helmet.
  - All helmets, regardless of approved marks, must provide temple protection (commonly known as 'Jet' or 'Open Face' or 'Full Face').
  - Helmet peaks, if worn, must be of flexible material attached by press studs, straps, plastic screws, or tape. The peak must be capable of being torn from the helmet in the event of an incident.
- ✓ Boots – must be well constructed, either all leather or leather uppers or leather substitute and solid rubber sole not less than 25cm from the inner sole to the top of the boot. Sufficiently secured.
- ✓ Jersey - heavyweight cotton or similar type fabric with long sleeves.
- ✓ Trousers - long leather, nylon motocross, heavy worsted (e.g. ex-army type) or jeans.
- ✓ Body armour - body protection specifically designed for motorcycle use that must include back protection.

### Recommended safety riding gear;

- ✓ Gloves – cover finger tips and correct fit
- ✓ Goggles – if using goggles there needs to be sufficient viewing through the lens
- ✓ Knee pads/braces and elbow pads
